TREACHEROUS CURRENTS OF MISMANAGED SOFTWARE

Don't let your organization drift through the dangerous waters of license overspend, software audits, shadow IT, and security threats.

76%
of organizations admit to over-licensing in fear of audits

49%
of CIOs say the threat of malware from unlicensed software is a major concern

25%
of software license budgets are spent on software license "complexity"

50%
of ex-employees still have access to corporate applications

Learn how Ivanti can be your lifesaver from the strong undertow of a mismanaged software estate.
