

# 10 Reasons to Move to Ivanti Service Manager Cloud

With Ivanti® Service Manager Cloud, you can easily move your on-premises Service Manager solution and data to the cloud to further streamline your operations. Ivanti Service Manager Cloud was built from the ground up to provide a highly scalable, secure, and easy-to-update infrastructure that supports your end users, employees, and IT Service Management processes from any place around the world.

## Why Move to Ivanti Service Manager Cloud?

If you're considering a cloud-based ITSM platform, here are 10 reasons to move from on-premises to cloud:

### Lower Ongoing Costs

1. **Reduce Operational Requirements:**  
Free up budget for on-premises hardware, upgrades, maintenance activities, and other associated costs.
2. **Get More Staff Time:**  
Cut out the routine work of server operations and free up your team to focus on the big things your operation needs.
3. **Optimize Existing Investments:**  
Reallocate your IT resources to more strategic tasks that add value to the business.

### Increase Innovation and Agility

4. **Instant Updates:**  
Receive automatic software and security updates and access new features the moment they become available with the latest release.
5. **Fast Innovation Access:**  
Take advantage of faster, ongoing cloud-based innovations like Ivanti Neurons to further improve team effectiveness and efficiency.

6. **On-Demand Scalability:**  
Scale your deployed capabilities as business needs change without having to worry about capacity planning or procurement delays.
7. **Flexible Work Practices:**  
Let your staff members access to your system while they are off-site or working remotely, connecting to their virtual workspace quickly, easily, and securely.

### Mitigate Operational Risks

8. **World-Class Security:**  
The full-time job of the Ivanti Cloud Operations team includes carefully monitoring and ensuring security, including data encryption, user authorizations, and ongoing security updates and audits.
9. **High Uptime / Availability:**  
Leverage the redundancies you need to make sure that you can still support employees and the business when the unexpected strikes.
10. **Business Continuity:**  
Your service management solution is backed up and protected in a secure and safe location, minimizing any downtime and loss of productivity.

## Moving to the Cloud is Probably Easier than You Think

Move to Ivanti Service Manager Cloud without disrupting your business, losing data, or frustrating users. Learn how Ivanti can help you move to the Service Manager Cloud with little to no impact on your end users while helping you meet the growing demands on your team.
