6 Reasons
to move to Android

1 ### Modern foundation of intelligent solutions
Android is the go-to operating system for maximizing efficiency and productivity, including exclusive advanced features.

2 ### Investing with a long-term vision
With Android, customers get the new enterprise standard for mobility with support among industry leaders.

3 ### Rapid onboarding and minimized retraining
Operators can rely on temporary workers with an OS that's intuitive and feels familiar even for new hires.

4 ### Enterprise-level security
Provide ongoing protection from an operating system with security at the core.

5 ### Trusted support and fewer repairs
Help customers extend the life of their devices and lighten IT burdens.

6 ### Enhanced User Experience
Modernize your green screen experience and add voice to your platform with Ivanti Velocity.
