

Ivanti Neurons for Discovery

Consolidated Asset Intelligence. Confident Exposure Management Control.

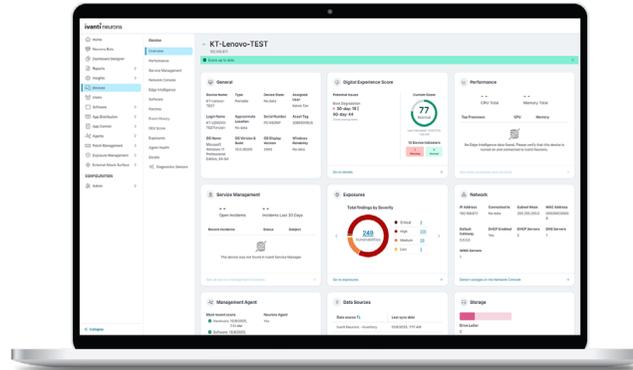

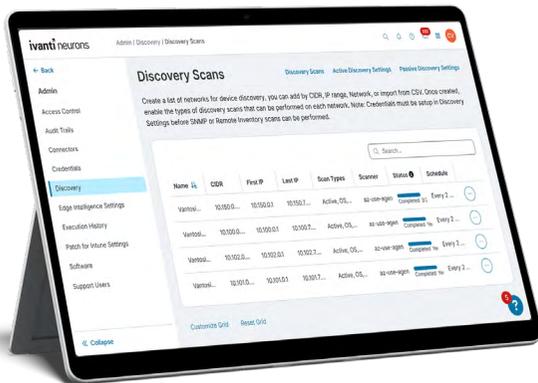

Eliminate Your Blind Spots to Build a Stronger IT Foundation

Blind spots put organizations at risk for security breaches, compliance failures, and operational inefficiencies. As organization's environments expand across cloud, SaaS, on-prem, OT/IoT and highly restricted networks, proactive asset management becomes essential for cyber hygiene and operational control.

Comprehensive Asset Discovery — Unmatched Coverage

Ivanti Neurons for Discovery uses active and passive scanning, agent and agentless methods, and has a large ecosystem with 150+ connectors to discover every IT, cloud, SaaS, OT/IoT asset and highly restricted networks, ensuring nothing remains hidden or unmanaged.

Aggregated Exposure Insights — Actionable, Audit-Ready Dashboards

View every asset, license, and vulnerability in a single, intuitive dashboard that enables rapid analysis, prioritization, and evidence for compliance.

Software Estate Management — Track software inventory, licenses, warranties, and spend with built-in analytics

Ivanti Neurons for Discovery provides deep visibility into your entire software landscape, including applications, licenses, warranties, contracts, and purchase records. Built-in analytics help you monitor usage, optimize spend, ensure compliance, and streamline audit-readiness from a single, unified platform. Seamlessly integrating with ITAM, this solution delivers a comprehensive asset lifecycle management approach, enabling you to manage and optimize both software and hardware assets throughout their entire lifecycle.

Discovery: The Cornerstone of Modern IT and Security

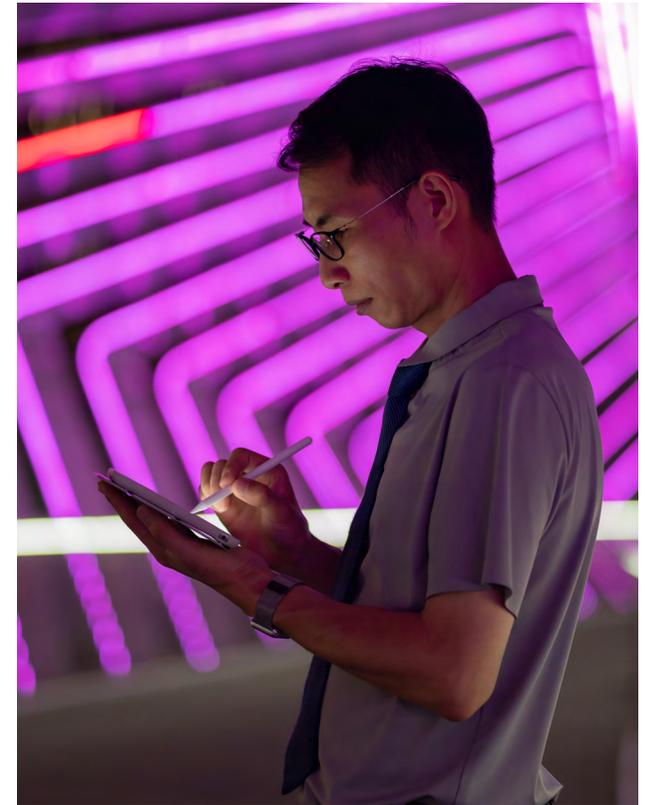

True operational excellence begins with comprehensive visibility. Ivanti Neurons for Discovery delivers real-time, dependable asset intelligence that drives every critical IT and security initiative. Whether you are populating asset or configuration databases, strengthening IT service and security management, or improving digital employee experiences, Discovery serves as the single source of truth. This unified asset intelligence underpins resilient operations, empowering your teams to identify, assess, and resolve issues confidently across your digital ecosystem. Build your IT strategy on the clarity and control that only Discovery provides.

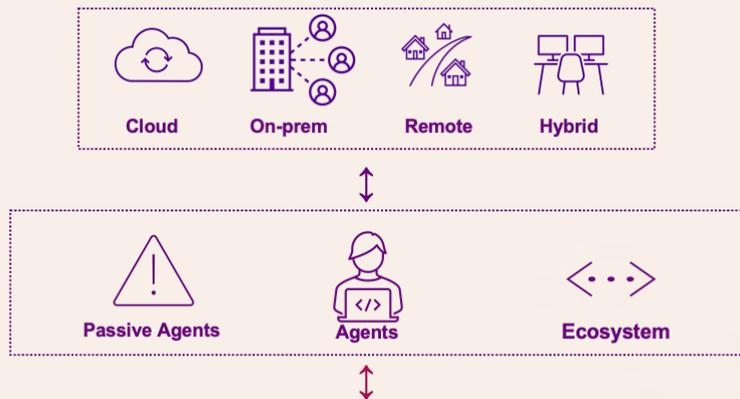

Consolidated Asset Intelligence: Visibility, Control, Protection Everywhere

Ivanti Neurons for Discovery gives you complete visibility across cloud, on-prem, remote, and hybrid environments. Using powerful connectors, and active and passive agents it uncovers every asset, even those that are fleeting or hidden. Advanced normalization and reconciliation create a consolidated, trustworthy asset inventory, ready for your CMDB. Automated workflows link discovery straight to patching, ITSM, and incident response, accelerating resolution. Gain deep software asset intelligence with inventory, license, contract, and spend analytics. Benefit from an extensive ecosystem, enabling effortless data aggregation.

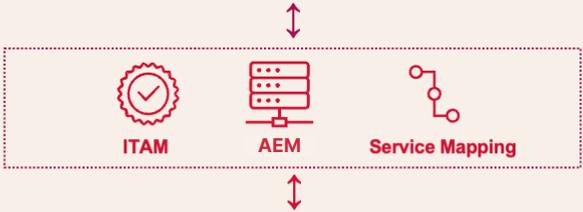

Key Capabilities

- **Active & Passive Discovery:** Real-time scans and passive monitoring reveal every asset—even brief or hidden connections.
- **Normalization & Reconciliation:** Cleans, deduplicates, and unifies data for trustworthy, CMDB-ready inventories.
- **Automated Workflows:** Directly link discovery to patching, ITAM, ITSM, and incident response for faster resolution.
- **Software Asset Intelligence:** Built-in inventory and license management, with contract visibility and spend analytics.
- **Extensive Integration Ecosystem:** Over 150 connectors for seamless data aggregation across all critical platforms.
- **Exposure Aggregation Panel:** Centralizes vulnerabilities and threats across all sources for clear, unified risk visibility.

Unified Asset Dataset
Data Aggregation, Normalization, Reconciliation

CMDB, Operational Automation, Security, Compliance, Risk, Service Modeling

Ivanti Neurons for Discovery delivers consolidated visibility across hardware and software assets by consolidating data from devices, licenses, warranties, and purchase records. Automated normalization creates an accurate inventory for CMDB and ITAM, while software estate management streamlines audits and spend control. Aggregated vulnerability insights map threats to assets and applications, empowering teams to clearly see, prioritize, and quickly respond to risks. Security and IT teams gain reliable oversight, improved compliance, and faster incident response through a single platform.

Gain Complete Visibility. Accelerate Action — Real Results from Real Customers

Ivanti Neurons for Discovery empowers IT teams to see, know, and act across their IT environments faster and with greater accuracy. Leading organizations across banking, healthcare, telecom, and services rely on Ivanti Neurons for Discovery to drive asset intelligence and achieve measurable results.

Organizations benefit from accurate asset insights delivered in minutes, reduced audit and compliance time, proactive monitoring that minimizes device downtime, and improved data accuracy throughout IT and security operations.

With proven outcomes across industries, Ivanti Neurons for Discovery sets a new standard for asset intelligence. Elevate your IT operations and achieve complete visibility and control with Ivanti Neurons for Discovery.

What our customers are saying:

“Ivanti Neurons for Discovery provided accurate and actionable asset insights in minutes, not days — helping us eliminate blind spots and strengthen security.”

SouthStar Bank

“With Ivanti Neurons for Discovery, we finally have reliable, real-time data across our entire IT landscape.”

Service Corporation International (SCI)

“Ivanti Neurons for Discovery gave us actionable insights in minutes — enabling data-driven decisions that improved operational efficiency.”

ResultsCX

“Ivanti Neurons Discovery proactively monitored device health, tracking battery lifecycles to minimize downtime and keep systems running smoothly.”

Landeskrankenhaus

Ivanti Neurons for Discovery: A New Standard for Asset Security and Control

Modern organizations need more than just visibility—they need the power to act. Ivanti Neurons for Discovery unites discovery, normalization, vulnerability aggregation, license management, and exposure analysis on a single platform, powerfully integrated with ITSM, ITAM, Autonomous Endpoint Management, and Exposure management. Eliminate blind spots, respond faster, optimize spend, and secure your operations with the confidence of consolidated asset intelligence.

About Ivanti

Ivanti is a global enterprise IT and security software company dedicated to unlocking human potential by managing, automating and protecting data and systems to empower continuous innovation. With adaptable software solutions tailored to customer needs, Ivanti empowers IT and security teams to enhance operational efficiency, cut costs and proactively mitigate security risks. At the heart of Ivanti's offerings is the AI-powered Ivanti Neurons platform, which transforms the way IT and security teams operate. By delivering unified, reusable services and tools, the platform helps ensure consistent visibility, scalability, and secure solution implementation, enabling teams to work smarter, not harder. Over 34,000 customers, including 85 of the Fortune 100, have chosen Ivanti to meet their challenges. Ivanti follows "Secure by Design" principles to provide software solutions that scale with our customers' needs to help enable IT and Security to improve operational efficiency while reducing costs and proactively reducing risk. Ivanti fosters an inclusive environment where diverse perspectives are honored and valued, reflecting a commitment to a sustainable future for customers, partners, employees and the planet.
