

# Ivanti Neurons Platform

## Start Anywhere. Scale Everywhere.

Unify IT and Security Operations with Real Integration and Embedded AI.  
Accelerated Efficiency. Stronger Security. Connected Experience.

## Disconnected Tools. Rising Risks. Slower Progress.

IT environments are evolving fast—cloud adoption, hybrid work, and BYOD have multiplied endpoints and expanded the attack surface. Security threats and compliance demands keep rising. Meanwhile, disconnected tools and manual processes slow teams down, increase costs, and create blind spots.

### Organizations face:

- Fragmented systems that hinder visibility and collaboration
- Device sprawl straining resources
- Compliance pressure demanding constant vigilance
- Manual workflows slowing resolution and increasing risk
- Rising user expectations for frictionless IT support

Without a unified approach, complexity becomes a barrier to innovation and growth.

## One Platform to Unify IT and Security

Ivanti Neurons is built on a platform-first strategy: start anywhere—ITSM (IT Service Management), Autonomous Endpoint Management (AEM), or Security—and expand seamlessly. Every capability runs on the same cloud-native architecture, eliminating silos and enabling effortless interoperability.

### What Makes It Different:

- Real integration with shared services and unified data fabric
- Embedded AI rooted in your data for accurate automation
- Invisible security that never disrupts workflows
- Open ecosystem with a large integration network of connectors and APIs, ensuring compatibility with Microsoft Intune, ServiceNow, Cisco, CrowdStrike, and more

## The Power Behind the Platform

Ivanti Neurons brings ITSM, AEM, and Security together under one roof, creating a truly unified experience. At its core, the platform is designed to eliminate silos and accelerate workflows through a shared data fabric and embedded AI.

### Key Capabilities:

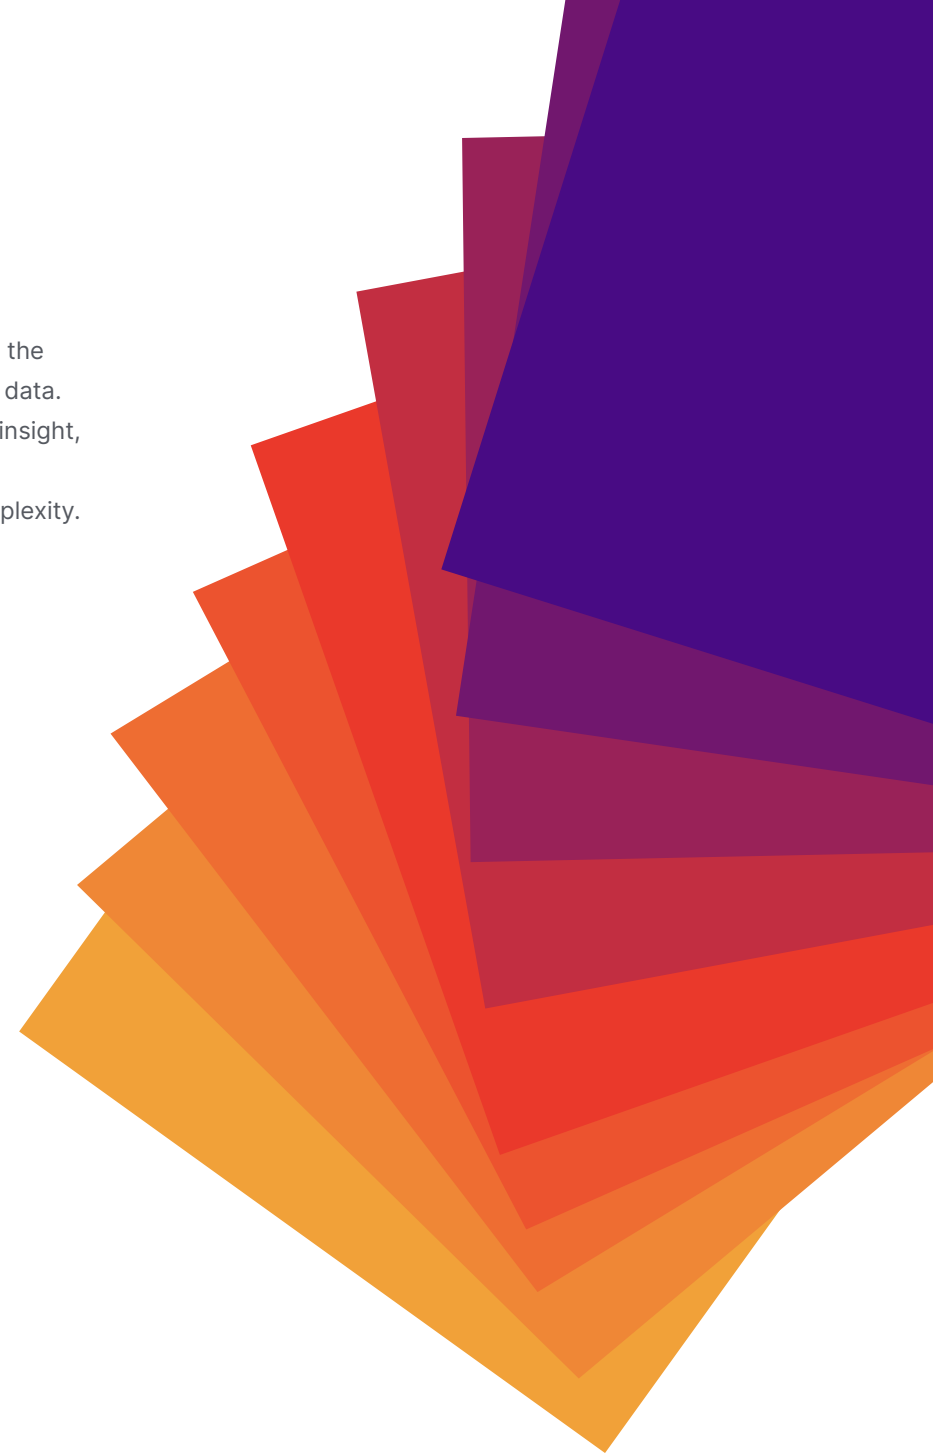

- Unified IT & Security actions in one dashboard
- Autonomous endpoint management with predictive patching
- AI-powered workflows for smarter operations
- Extensive integration ecosystem with several connectors and open APIs, enabling seamless interoperability across Microsoft Intune, ServiceNow, Cisco, CrowdStrike, and beyond
- Continuous resilience with always-on security

## AI That Works for You

Ivanti's outcome-based AI is grounded in your organization's data—not generic models—so it delivers accurate automation and actionable insights. It predicts issues before they happen, automates fixes, and continuously learns to make workflows smarter over time. This means fewer errors, faster resolutions, and stronger security without disruption.

## Where Everything Connects

Think of Ivanti Neurons as an intelligent backbone where ITSM, AEM, and Security converge into one adaptive ecosystem. Every layer—from service management to endpoint control to threat response—shares the same foundation, powered by AI and unified data. This architecture ensures that every action, insight, and integration works together seamlessly, giving you agility and resilience without complexity.

## From Complexity to Clarity

Technology should deliver business impact—not just technical improvements. Ivanti Neurons empowers IT and security teams to focus on innovation and strategic growth—not firefighting.

### Unified Data Fabric, Connected Outcomes

Ivanti Neurons' unified data fabric links ITSM, AEM, and Security, providing seamless access to information and actionable insights. This connected foundation is powered by AI and enables automation, sharper decision making, and real-time teamwork. Expanding capabilities or integrating third-party tools is straightforward with simple connector configuration, and our cloud-native design supports your growth as requirements change.

#### With Ivanti Neurons, you achieve:

- Faster issue resolution
- Lower risk through predictive compliance
- Operational efficiency and cost optimization
- Enhanced employee experience
- Continuous security and rapid ROI

## Trusted by Leaders. Proven by Results.

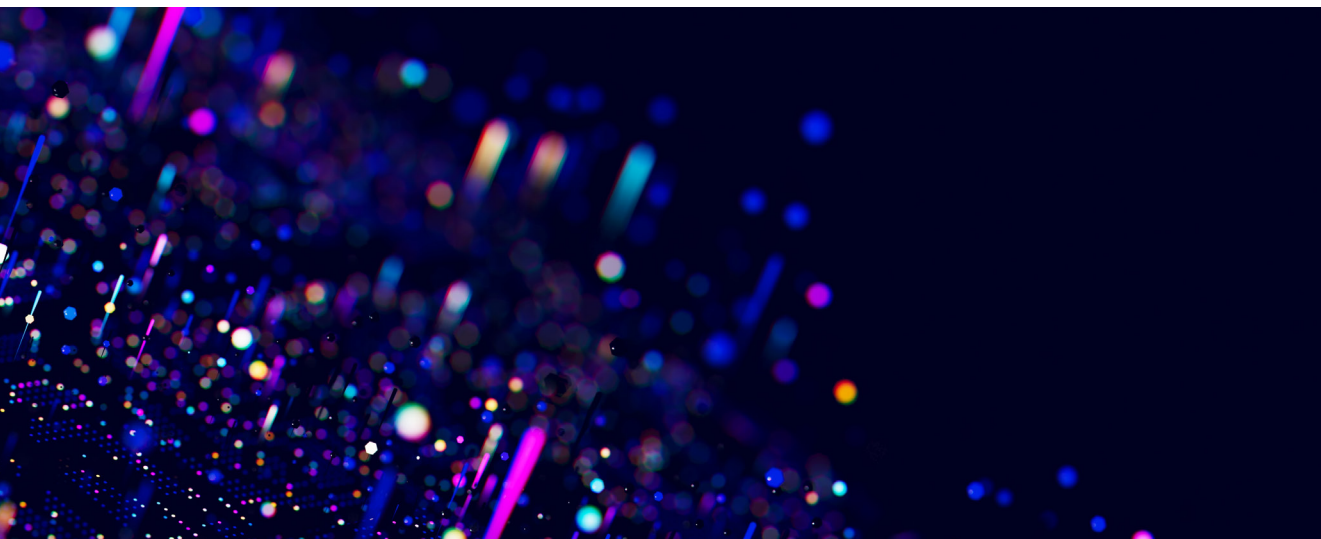

### Customer Voices:

- “Ivanti gives us visibility and control in a single platform.”  
— City of Seattle
- “We could migrate to the cloud on our timeline—without disrupting users.” — Conair
- “It’s so easy to use—it’s almost like setting it and forgetting it.” — Southstar Bank
- “Ivanti helped us automate and evolve with insights we never had before.” — Agrex

### Analyst Recognition:

- Forrester: Fully native AEM, ESM, VRM, and DEX capabilities
- IDC: Predictive, self-healing ITSM
- Gartner: AI-driven automation for improved IT efficiency

## Your Platform for What's Next

Ivanti Neurons is more than a collection of tools—it's a unified platform designed for agility and trust. Built on a platform-first approach, it lets you start anywhere and expand everywhere without disruption. Its outcome-based AI delivers trusted automation and actionable insights grounded in your data, while invisible security works quietly in the background to keep your organization safe. With an open ecosystem of integrations and unified reporting, Ivanti Neurons connects your IT and security operations seamlessly. And trusted by customers worldwide, you can move forward with confidence knowing you're backed by proven innovation.

## About Ivanti

Ivanti is a global enterprise IT and security software company dedicated to unlocking human potential by managing, automating and protecting data and systems to empower continuous innovation. With adaptable software solutions tailored to customer needs, Ivanti empowers IT and security teams to enhance operational efficiency, cut costs and proactively mitigate security risks. At the heart of Ivanti's offerings is the AI-powered Ivanti Neurons platform, which transforms the way IT and security teams operate. By delivering unified, reusable services and tools, the platform helps ensure consistent visibility, scalability, and secure solution implementation, enabling teams to work smarter, not harder. Over 34,000 customers, including 85 of the Fortune 100, have chosen Ivanti to meet their challenges. Ivanti follows "Secure by Design" principles to provide software solutions that scale with our customers' needs to help enable IT and Security to improve operational efficiency while reducing costs and proactively reducing risk. Ivanti fosters an inclusive environment where diverse perspectives are honored and valued, reflecting a commitment to a sustainable future for customers, partners, employees and the planet.
