Microsoft	13 Bulletins	6 Critical	7 Imporant	3 Public Disclosure	2 Zero-Day
Adobe	1 Bulletins	1 Critical	0 Imporant	0 Public Disclosure	1 Zero-Day
Oracle	1 Bulletins	- Critical	- Imporant	- Public Disclosure	- Zero-Day
Mozilla	0 Bulletins	- Critical	- Imporant	- Public Disclosure	- Zero-Day

Leading up to April Patch Tuesday has been like the weather forecast with the stormy hype around the Badlock vulnerability that affects Samba and Windows. With Badlock, instead of rain, the reality is partly cloudy. There are eight total CVEs related to Badlock; only one affects Windows (MS16-047). The other 12 bulletins from Microsoft and updates from Adobe and Oracle should be the focus for this month.

		Bulletins	CVE Count	Impact	Vendor Severity	Publicly Disclosed	Zero Day	Threat Risk	Notes
								Medium Medium-High High	
	Microsoft	MS16-037 Internet Explorer	6	Remote Code Execution	Critical				Disclosed CVE-2016-0160
		MS16-038 Edge	6	Remote Code Execution	Critical				
		MS16-039 Windows, .Net, Office, Skype, Lync	4	Remote Code Execution	Critical				CVE-2016-0165 exploited in wild, CVE-2016-0167 exploited in wild
		MS16-040 Windows	1	Remote Code Execution	Critical				
		MS16-041 Windows, .Net	1	Remote Code Execution	Important				Disclosed CVE-2016-0148
		MS16-042 Office, Sharepoint	4	Remote Code Execution	Critical				
		MS16-044 Windows	1	Remote Code Execution	Important				
		MS16-045 Windows	3	Remote Code Execution	Important				
		MS16-046 Windows	1	Elevation of Privilege	Important				Disclosed CVE-2016-0135
		MS16-047 Windows	1	Elevation of Privilege	Important				Addresses Badlock Disclosed CVE-2016-0128
		MS16-048 Windows	1	Security Feature Bypass	Important				
		MS16-049 Windows	1	Denial of Service	Important				
		MS16-050 Flash for Internet Explorer	24*	Remote Code Execution	Critical				Supports the Plug-In update for Flash for IE.
	Adobe	APSB16-08 Flash Player, AIR	24	Code Execution	Critical				Zero Day: CVE-2016-1019
	Oracle	JAVA8-79 Java	TBD						Releasing April 19th.
	Mozilla	Firefox	0						No CVE's reported in release notes.

* = This update resolves the 24 Flash vulnerabilities from APSB16-08
