Zero-Day

Even though there are no Zero Day vulnerabilities, July's Patch Tuesday is far from boring. Several of the vulnerabilities are user-targeted and could be mitigated with proper privilege management – a good reminder of the value of a layered security defense in protecting against both unknown and currently unpatched vulnerabilities.

		Bulletins	CVE Count	Impact	Vendor Severity	Publicly Disclosed	Zero Day	Threat Risk	User Targeted	Privilege Management Mitigates	Notes
								<div>Medium</div> <div>Medium-High</div> <div>High</div>			
 Microsoft	MS16-084 Internet Explorer		15	Remote Code Execution	Critical			<div>Medium-High</div>	<div>User Targeted</div>	<div>Privilege Management Mitigates</div>	
	MS16-085 Edge		13	Remote Code Execution	Critical			<div>Medium-High</div>	<div>User Targeted</div>	<div>Privilege Management Mitigates</div>	
	MS16-086 Windows		1	Remote Code Execution	Critical			<div>Medium-High</div>	<div>User Targeted</div>	<div>Privilege Management Mitigates</div>	
	MS16-087 Windows		2	Remote Code Execution	Critical			<div>Medium-High</div>			
	MS16-088 Office, SharePoint		7	Remote Code Execution	Critical			<div>Medium-High</div>	<div>User Targeted</div>	<div>Privilege Management Mitigates</div>	
	MS16-089 Windows		1	Information Disclosure	Important			<div>Medium</div>			
	MS16-090 Windows		6	Privilege Escalation	Important			<div>Medium</div>			
	MS16-091 .Net Framework		1	Information Disclosure	Important			<div>Medium</div>			
	MS16-092 Windows		2	Security Feature Bypass	Important	<div>Publicly Disclosed</div>		<div>Medium</div>			Publicly disclosed CVE-2016-3272
	MS16-093 Flash for IE		52	Remote Code Execution	Critical			<div>High</div>	<div>User Targeted</div>		
	MS16-094 Windows		1	Security Feature Bypass	Important	<div>Publicly Disclosed</div>		<div>Medium</div>			Publicly disclosed CVE-2016-3287
 Adobe	APSB16-25 Flash Player		52	Remote Code Execution	Critical			<div>High</div>	<div>User Targeted</div>		
	APSB16-26 Acrobat and Reader		30	Remote Code Execution	Important			<div>Medium</div>	<div>User Targeted</div>		
 Oracle	TBA Java		TBA	Remote Code Execution	Critical			<div>Medium</div>			Will release on July 19th
